confirmed that next university examination will be held online, though there is not any scope of reduction or reduce the syllabus but the question pattern will be different from the offline or physical examination. Students have also been informed about internal assessment and tentative time of the semester-end examination. Students have also been provided necessary information regarding online classes, platform used and also about link of online classes when and how it will be provided. Students were made aware of various scholarships, freeships, and given advice on career choices for Commerce students.

21/11/2020

Issues raised: Many students asked about the publication of last even semester result, how evaluation was made, about whether current odd semester examination will be online or offline, syllabus, availability of books from the college library and also from the departmental seminar library and the procedures related. Students raised issues related to the results of previous examinations.

Issues resolved: Information provided about the procedures of obtaining library card and formalities related to get books from the library and departmental seminar library. Due to pandemic situation, online facilities regarding study materials were informed. Students were given the assurance that all result-related discrepancies will be dealt with immediately. The mental adjustments which students have to undergo as a direct result of the pandemic. The students discussed their anxieties pertaining to the shift from offline to an online mode of learning, difficulty in accessing resources, technological issues related to the digital divide.

16/01/2021

Issues raised: Some students struggled to continue their education because of the pandemic. The students asked about NCC and NSS and where from necessary information are available. Students also asked about games and sports, any gym facilities, college magazine, cultural programme etc. Mentoring sessions focused on one-to-one counselling of students, creating awareness of digital platforms, encouraging them to keep in touch with each, develop a sense of the classroom dynamics in the absence of physical classes.

Issues resolved: Students are informed that the college give waiver of tuition fees to economically poor students and requested to apply to the authorities. Regarding NCC and NSS, name of the co-ordinator to be contacted was given. And information provided regarding games and sports, college magazine and names of the teachers and committees concerned.

27/03/2021

Issues raised: Students of particularly semester VI asked about the 'Career-Counselling and placement programme conducted by the department of the college. Students wanted more information on intra-college and inter-college debates, webinars, elocutions, and other extracurricular events.

Issues resolved: Students have been informed that the college has a career-counselling and placement cell. They also have been provided the name of the co-ordinator concerned. Various google meet and zoom links and event posters and flyers were shared with the students.

AKASH KARKI	<p>29/05/2021</p> <p>Issues raised: Students discussed their problems with regard to online mode of examination. Queries and apprehensions regarding vaccination of the 18+ age group. Questions raised by the students regarding class test, mid-term test etc.</p> <p>Issues resolved: Detailed discussion and Power Point presentation to get them acquainted with the Google forms, conversion tools and the general procedure of submission. Students are informed that the Government will soon arrange for vaccination of this group. Students have been informed that the department conducts class test on a regular basis and mid-term exam as per schedule of the college.</p> <p>11/08/2021</p> <p>Issues raised: Students of all semesters particularly of semester I, III and V wanted to know about "Information Technology and its application in Business" related functional activities concerning how the theory and practical classes will be held and the procedure of submitting IT project report. The students also wanted to know about the prospects of IT related activities in the field of employment.</p> <p>Issues resolved: The students have been informed regarding theory and practical classes and the mode of attending such classes and also about how and when the project report will be submitted and to whom. Students have been intimated that the knowledge to be gathered attending IT theory and practical classes would help them in future relating to the field of employment.</p>
